BACHELOR OF COUNSELLING

Programme Overview

This programme covers a comprehensive range of theoretical knowledge as well as practical skills in counselling to equip students with the essential skills for professional counselling. It appeals to students who wish to pursue a career as a professional counsellor in various settings such as schools, counselling agencies, Social Service Agencies (SSA), and other government and private bodies.

Graduates of this programme who continue to pursue the SUSS Master of Counselling programme, and complete 600 hours of face-to-face counselling and 60 hours of clinical supervision would meet the standards and requirements stipulated by the Singapore Association for Counselling (SAC) for SAC membership as registered counsellors.

Whom is this for?

This programme is suitable for those who are seeking a career in the direction of professional counselling work as well as professionals who are keen in learning and applying knowledge and practice of professional counselling skills in the midst of providing supportive care.

The Bachelor of Counselling programme has enabled me to build up my knowledge, skills and confidence for my future journey as a counsellor and has given me invaluable insights on how I can improve myself in all aspects of life. Compared to 3 years ago, I believe that I have grown in this life journey and will continue to do so because of the strong foundations attained in the programme.”

THAM YUAN TING

BACHELOR OF EARLY CHILDHOOD EDUCATION

Programme Overview

This programme advocates for inclusive practices, a constructivist approach that is playful and encourages infants, toddlers and pre-schoolers to be enquirers and active learners. A key feature of this programme is its strong theory-practice focus, requiring practising educators to more critically reflect on, analyse and apply relevant theories and research in their own teaching.

This degree programme is anchored in the belief that all children are capable as learners and are naturally curious about the world around them. The programme supports early childhood professionals who are eager to learn and want to build a professional community to advance the sector in Singapore.

The programme is designed for early childhood educators who want to be teacher leaders and have a strong desire to continue in their existing career pathway to become more reflective practitioners, more professional and updated educators who are ready to advocate for young children's wellbeing and development as enquirers and curious learners.

Priority will be given to preschool teachers currently employed in the field.

You may pursue Early Childhood Education as a single major or in combination with a minor.

Whom is this for?

The programme is designed for L2 ECDA-registered early childhood educators working in child care centres and kindergartens.

Career Prospects

Graduates of this programme can continue in the early childhood sector as senior teachers and lead teachers as well as principals* and curriculum developers. Career possibilities in related industries are dependent on one's ability to be adaptable and knowledgeable enough to integrate one's ECE knowledge with other disciplines to serve young children and their families.

* Refer to the additional professional requirements set by the Early Childhood Development Agency (ECDA) for centre principals.

The warm and nurturing academic environment at SUSS has rekindled my academic drive and has transformed me into an avid and reflective practitioner in the Early Childhood Sector. SUSS has enabled me to live a different life from full-time students and working adults. As a part-time student, I have learned resilience, time management and developed a growth mindset. Though it was challenging to balance between responsibilities, it is through these challenges that I have become an improved version of myself."

BACHELOR OF SOCIAL WORK

Programme Overview

The Bachelor of Social Work programme emanates from the key foundational components of social work theory and practice. The focus is on the mastery and integration of an eclectic knowledge base and a broad spectrum of skills. A wide range of theoretical knowledge and practice skills underlying social work practice will be covered.

All these will prepare graduates in utilising a common helping process on multiple levels — with individuals, families, groups, organisations and communities — and in implementing a variety of intervention roles including advocate, broker, case manager, counsellor, group educator and mediator. The programme will also prepare graduates to practise in a variety of settings and with diverse populations.

Whom is this for?

This programme would appeal to those who are interested to pursue a career as a professional social worker in the various social services settings.

Career Prospects

Social workers can practise in a variety of settings:

- Government Ministries
- National Council of Social Service
- Family Services Centres
- Community Development Centres
- Prisons and other rehabilitation agencies
- Hospitals, hospices and other health agencies
